

## ENSER PROFESSIONAL DIGITAL SIGNAGE DISPLAY

Transform Your Space, Engage Your  
Audience.

Smarter Digital Signage Displays for a Smarter Business.

Welcome to the future of communication. Our slim and modern digital signage displays are the game-changer your business needs to stand out. Impress clients, inform visitors, and elevate your brand with stunning 4K clarity. Your competitors are already upgrading—don't get left behind.

# Performance That's Always On.

Enser Digital Signage Displays are engineered for reliability and designed to impress.

## Picture-Perfect Clarity

### Ultra HD 4K Resolution:

Breathtaking visuals that stun even in daylight. Experience unmatched clarity that will make your content pop.

### Pixel Shifting Technology:

Protect your investment. Our intelligent technology prevents image burn-in, ensuring your display looks as good as new, day after day

## Effortless Control & Reliability

- **Signal Failover:** Stay connected, always. If a signal source fails, the display automatically switches to a backup, guaranteeing uninterrupted playback.
- **Scheduler:** Automate your message. Set a schedule to power on, power off, and change content effortlessly, saving you time and energy.
- **USB Auto-Play:** Simple, secure, and ready to go. Just plug in a USB drive with your content, and the display does the rest, with a lockable cover for added security.

A high-angle photograph of a city skyline with various skyscrapers and residential buildings under a cloudy sky. Three orange callout boxes with white dots pointing to specific buildings are overlaid on the image. The callouts are labeled 'Corporates & Schools', 'Hospitals & Public Spaces', and 'Retail & Hotels'.

Corporates &  
Schools

Hospitals &  
Public Spaces

Retail & Hotels

## Versatile Applications

- **For Corporates & Schools:** Elevate presentations and streamline internal communications.
- **For Retail & Hotels:** Create high-impact visuals that grab attention and guide customers.
- **For Hospitals & Public Spaces:** Deliver critical information clearly and efficiently.

## Seamless Integration. Limitless Possibilities.

The perfect fit for any environment.

## Advanced Connectivity

- **HDMI (2 X):** Connect multiple devices with ease.
- **USB (2 X):** Conveniently load and play content.
- **DisplayPort In/Out:** Daisy-chain multiple displays for a seamless video wall effect.
- **RS232, IR, LAN:** Take control with advanced integration options for seamless, hands-free operation.
- **OPS/SDM/NUC/IR/IR Extender Options:** A future-proof design that ensures compatibility with all your presentation needs.
